

MRSF Junior Division Virtual Presentation Requirements

The following information must be incorporated into your narrated PowerPoint. You may use a maximum of 10 slides.

- Project Title, Project Number, Student Name, and Teacher Name
- Statement of the problem: what did you hope to accomplish with your research?
- Rationale: background information that supports your research problem, the importance of the research and how it is applicable, as well as any societal impact that your project may have.
- Hypothesis
- Procedures
- Results/Display of Data
- Data Analysis
- Conclusions

Notes:

1. The narration of the slides should be no longer than 5 minutes; if the presentation exceeds 5 minutes the judges will stop the presentation at 5 minutes.
2. Use the following link to find out how to make a narrated powerpoint:
<https://business.tutsplus.com/tutorials/powerpoint-narration--cms-29313>
3. Do not use flash, fancy transitions, or music.
4. If you created a presentation board, you may take pictures of the various sections of the presentation board and use them in your PowerPoint presentation (you do not have to give a credit to these pictures).
5. All photos on the board or in the presentation must be taken by the student; references and permissions must be included when appropriate. The credit "photograph taken by your name" must be on all pictures except those mentioned in #3.
6. When your project was accepted, it was promoted to the Metro Richmond STEM Fair; when this occurred, your project number changed. To find your project number, go to the Metro Richmond STEM Fair site in zfairst, select students on the ToolBar and type your name in the search box.
7. Email the PowerPoint to mrsf@mymsic.org by 3.24.20 at 9:00 am. There will be **no extensions**. Use your project number from the **Metro Richmond STEM Fair** zfairst site as the subject of your email. (Example: MRSF-JD BE-149). We will send the PowerPoint to the judges. The judges will also have access to your abstract and research paper.
8. If your PowerPoint is too large to email, you may need to compress it and then email the compressed file. Follow these steps.
 - Open File Explorer and find your file
 - Right click on the file
 - Select Send to; a box will open
 - Click on Compressed (zipped) folder
 - A new file will appear in your folder with a zipped folder icon
 - Email the zipped folder as explained in #7
