

Good Afternoon,

I hope that this correspondence finds you well. We have taken into account your needs, questions, and suggestions as we plan our first virtual MRSF with the resources that we have available.

As mentioned in the previous email, you will need to create a ten slide narrated PowerPoint using the requirements that are in the attached document. Please review the attached document, as it has been updated.

Email your presentation to [mrsf@mymsic.org](mailto:mrsf@mymsic.org) by 3.24.20 at 9:00 am. Use your project number from the Metro Richmond STEM Fair zfacts site as the subject of your email. (Example: MRSF-JD BE-149).

Your judges will use your abstract, research paper and the PowerPoint to review your projects and determine the category winners. If you do not submit the powerpoint, your project will be judged using your abstract and research paper.

We will continue to correspond with you over the coming weeks. Please send all inquiries to the [mrsf@mymsic.org](mailto:mrsf@mymsic.org) email account.
